SUMMARY

Senior Laravel Developer with 4+ years of experience in building admin panels, CRMs, and custom dashboards & websites. Expert in PHP, Laravel, MySQL, AJAX, HTML/CSS, and JavaScript, with strong backend and database skills. Proven ability to optimize large systems, manage file uploads, and implement advanced filtering with DataTables. Experienced in API integrations, Dropzone, and secure role-based access systems. Delivered full-stack solutions including invoice, vehicle, and messaging platforms with real-time features. Skilled in server deployment (CyberPanel, VPS) and converting UI themes into dynamic Laravel views. Reliable freelancer with a track record of delivering high-quality projects on time and within budget.

WORK EXPERIENCE

Senior Laravel Developer, Code Genius

Jan 2025 - April 2025

- Led full-stack development for multiple web applications including CRMs, admin dashboards, and custom ERP solutions.
- Built scalable backend systems using Laravel, RESTful APIs, MySQL, and third-party integrations.
- Contributed to DevOps tasks including deployment, CyberPanel setup, and server performance tuning

PHP Laravel Developer, Softwebies

Mar 2022 - Mar 2024

- Developed and maintained large-scale Laravel applications, including invoicing, logistics, and user management systems.
- Integrated third-party APIs, optimized complex SQL queries, and handled role-based access and permissions.
- Collaborated with frontend teams to deliver responsive, dynamic interfaces using Blade, AJAX, and jQuery.
